

Hello, everybody.

First of all, I would like to take this opportunity to express our deepest good wishes, to you and your loved ones.

The epidemic is a global challenge. A sudden change that has brought sorrow to some, social distance to many. For sure it is changing the daily lives of us all. Six months ago, we were celebrating together. Today we planned to repeat that.

I remember just before Chinese New Year. The team was discussing with me the plans for the April event, and then suddenly everything changed. We discussed internally and finally decided: April 16th is still our "dream moment".

During the last few years, we built our shared legacy of celebration. We value our tradition, we forge ahead of our spirit, so we decided to perform the Homa event online.

By this chance, I would like to deliver a big thank you to who is tackling the virus, as the doctors around the world, putting their own lives at risk.

They are all heroes. I will never forget those of you who supported Homa during our February difficult moment. You donated and purchased medical supplies and equipment and you delivered your encouragements to us. Together we will cope with this challenge.

Every dark cloud has a silver lining. This temporary distance will not carry away the shared passion. We will be strong and we will adapt to the "new normal".

We can foresee nature awakens when winter ends. At Homa we are quickly returning to regular production pace. We are rolling out with confidence, a package of new activities to bounce back and move on. Not only the products but also other kinds of support.

For example, financial support, production flexibility and special logistics arrangement. We strengthen the guidance of our core: the historical top management team. The Company is ready to play its leading role in the industry.

This global pandemic will shape businesses for many years to come, but Homa is ready for that. I believe you will be ready for that also. We are here for long. All my teams are working hard to assist and solve issues you may face. With passion, courage, and support, we will stand together.

This April, we will not perform the physical event, so we decided to donate all the event budget to support global pandemic prevention. Once again, dear friends, more than ever, we are all in this together.

Please stay safe, stay in contact.  
Please keep dreaming, keep confidence.  
After this crisis, we will all become stronger.

Hereby, I would like to say:  
Please come back on October Canton Fair. I expect to see you there.

Thank you, thank you very much.

Michael YAO  
CEO & President  
Homa Appliances Co., Ltd.
